TITLE: MQA – DOZE MATERIAL USING A TYRE DOZER IN AN UNDERGROUND MINE

Document Owner: Operations Manager

MQA UNDERGROUND SKILLS PROGRAM - MQA/SP/0173/17

SAQA US ID	244409	ELECTI	ELECTIVE UNIT STANDARD			
Unit Standard Title	Doze material using a Tyre Dozer in an underground mine					
NQF Level	02 SGB Mining and Minerals					
Credits	6	No	tional Hours	60		
Duration	Candidate	Knowledge	Practical		Workplace	
	Novice	2 days	3 days		1 day / 8 hours	
	RPL (Re-fresher)	1 day	1 day		N/A	
	Re-certification	½ day	½ day		N/A	
Ratio of candidates to assessor		4:1	4:1		1:1	

NOTE: MQA SKILLS PROGRAM RULES BEFORE A SOR (Statement of Results) CAN BE ISSUED:

- All Cores need to be completed
- At least 1 Elective with a minimum of 7 Credits from the Elective Unit Standard
- Additional 1 Day is required to conduct the Summative Practical Assessment after workplace exposure (logbook).

PURPOSE OF THE COURSE

This unit standard will be useful to people who have to doze material using a tyre dozer within an underground workplace

PRE-REQUISITES

- Follow basic occupational health and safety practices underground at NQF Level 1.
- Take charge of and drive a non-articulating vehicle in an underground mine at NQF Level 1.
- · Certified Copy of ID
- Copy of learners Medical Certificate

SPECIFIC OUTCOMES OF THE COURSE

- Explain the dozing of material using a tyre dozer in an underground mine.
- Prepare to doze material using a tyre dozer.
- Doze material using a tyre dozer.
- Perform post-dozing activities

ESSENTIAL EMBEDDED KNOWLEDGE

The following embedded knowledge is addressed in an integrated way in the unit standard:

Risks associated with workplace hazards relating to:

- Support conditions.
- Ground conditions.
- Roadway conditions.
- Environmental conditions e.g. heat, gases, dust, excessive water, visibility and ventilation flow.
- · Inclinations.
- Open excavations.

Risks associated with work related hazards relating to:

- Working in proximity of moving machinery.
- · Pedestrians and other workers.
- · Working in proximity of cables and pipes.
- Hydraulic pressure.
- Roadway conditions.
- · Access control.
 - Manipulation of controls.
- Travelling/inclinations.
- Lock out procedure

Basic principles of controlling a tyre dozer:

- Monitoring of instruments, gauges and safety systems.
- Brake testing.

TITLE: MQA – DOZE MATERIAL USING A TYRE DOZER IN AN UNDERGROUND MINE

Document Owner: Operations Manager

Manipulation of controls.

Processes and events:

- Workplace examination.
- Pre-use inspection of vehicle.
- Preparation of tyre dozer.
- Take charge and doze material paying attention to the manipulation of the controls, inclinations, roadway conditions, pedestrians and prevention of injuries and property damage.

Occupational safety, occupational health and environment:

- Hazards and risks encountered.
- Safety systems and occupational health protection.
- Personal protective equipment.
- Environmental protection and pollution controls.
- Emergency procedures.

Applicable statutory requirements:

- Applicable Acts and Regulations.
- Codes of Practice.
- Operator competency requirements.

Communication requirements:

- Reporting.
- Liaison with associated operators.
- Interpreting and implementing instructions

RPL Evidence Requirements Prior to Enrolment

- Mine Induction Records
- **Medical Certificate**
- Curriculum Vitae
- **Testimonial**

Logbook supporting evidence requirements:

- * compulsory and ** additional supporting evidence.
- Completed and signed Checklists *
- Completed and signed Risk Assessment *
- Clocking records and equipment tag records. **
